

Atlas® Pro-9D

Overhead 9,000 lbs. Capacity 2 Post Lift

ARESCO
877.2ARESCO (877.227.3726)
248.335.LIFT (248.335.5438)

The Atlas® Pro-9D is the perfect choice for those customers who demand the most lifting capacity at the lowest possible price.

The Atlas® Pro-9D has symmetric columns and specially designed arms that can be set in either the symmetric or asymmetric position. The asymmetric/symmetric arm design offers an extremely low lift pad position on the EZ-metric lift arm configuration. This low pad height will allow the operator to position the lift arms under most small cars (with low pickup points) and heavier pickup trucks.

Features

- 9,000 lb. Capacity
- Light Commercial Grade
- "Padded" Shut-Off Bar
- Asymmetric/Symmetric Arms
- Clear Floor Design
- Powder Coat Finish
- Dual Hydraulic Direct Drive Cylinders
- Single Point Lock Release
- Secondary Lock System (SLS)
- Free 8 Piece Truck Adapter Set
- Automatic Arm Restraints
- Mounting Hardware Included
- 5-year Structural Warranty, 2-year Hydraulic-Power Warranty

Capacity	9,000 LB.
Lifting Time	Ask Your Salesperson
Overall Height	144" (12')
Overall Width	142 1/2" (11' 10 1/2") (With Power Unit) 133 7/8" (11' 1 7/8") (Without Power Unit)
Outside Column To Outside Column	124 1/8" (10' 4 1/8")
Lift Height (Without Adapters)	On Locks: 68" (5' 8") Not On Locks: 71 5/8" (5' 11 5/8")
Maximum Lift Height (With Adapters)	On Locks: 74 1/2" (6' 2 1/2") Not On Locks: 77 5/8" (6' 5 5/8")
Padded Bar Height	135 1/4" (11' 3 1/4")
Minimum Arm Height	4 1/2"
Inside Column	109 5/8" (9' 1 5/8")
Column Size	7 1/4" x 11"
Drive Thru	100 1/4" (8' 4 1/4") (Symmetric Arm Configuration) 92" (7' 8") (Asymmetric Arm Configuration)
Base of Lift	14 1/2" x 18"
Column Thickness of Steel	5mm
Carriage Thickness of Steel	6mm
Arms Thickness of Steel	6mm
Cable Diameter	.375"
Motor/Electrical Requirement	220V single (1) phase. A 30 amp breaker is required.
Oil Requirement	3-5 Gallons AW32/AW46
Shipping Weight	1450 lbs.
Requires a minimum of 4" of concrete with 3000 PSI
